SECTIONAL SEWER RODS

1/4" X 6 foot sections of round oil tempered steel. Operates efficiently at 200 feet. Makes 90 degree bends in 4" and 6" sewer lines. Will not operate in traps. Sewer Rod unit consists of 17 rods (total 102 ft.), couplings, cutter set and rod frame. Additional Rods and Cutter set components are available. Use TMS PART # 75360120 for ordering the complete Sewer Rod unit.

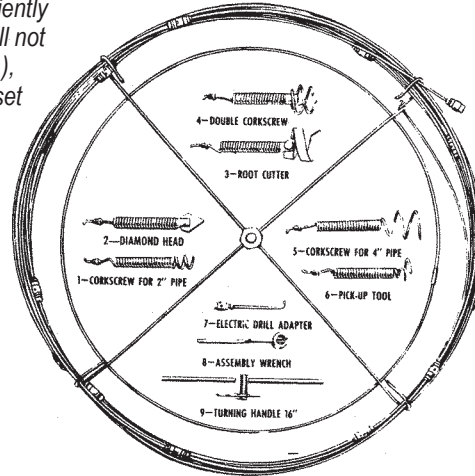

Cutaway View of Galvanized Coupling

Left Hand Nut

Right Hand Nut

Sectional Rods assemble at right angles and cannot come apart in the line.

Attach desired tool and assemble 6 ft. sections while feeding rod to obstruction.

Engage turning handle on first coupling from the end, with rod under arm to balance operation. Turn into stoppage and pull out to release water.

GENERAL WIRE SPRING CO. GEN-EYE3

For in-line inspection and preventative maintenance of sewer and drain lines, septic tanks, heating and cooling ducts, crawl spaces, etc. Troubleshoot 1-1/2" though 12" lines. Durable stainless steel camera body protects it and a scratch resistant sapphire lens keeps pictures crystal clear. Specially designed spring and camera shape negotiates bends and slides smoothly through the line. 28 ultra bright LED's.
